WE WANTED INDUSTRY EXPERTS FOR AN OVERSEAS CONFERENCE

We needed to transport members of staff to the airport for an important conference overseas, we did not have time to call around many different companies and we had never booked anything like this previously. We were a bit lost so decided to use CoachScanner and what a great choice that was.

RELIABILITY

As the event was overseas it was paramount all staff were picked up on time and transported efficiently. CoachScanner ensured the the journey was well planned well with reliable quality vehicles.

INDUSTRY EXPERTISE AND COMPETITIVE PRICING

CoachScanner quickly delivered a professtional service and dedicated us a single point of contact, similar to an account manager. Aaron managed to get a great deal that was much more cost effective than other forms of transport, we will use them again for our next trip.
